

# JAC S3 Got Five Stars Achievement in 2015 First C-NCAP Crash Test

2015-05-06

On the afternoon of April 23rd, China Automotive Technology & Research Center announced the first batch C-NCAP evaluation results. There were 17 models participating in the crash test, including five A class cars, three B class cars and nine SUV, and all the tested vehicles were purchased by C-NCAP management center from the automobile sales shops, and the tested vehicles have covered 9 independent automobile brands, 7 joint venture brands and 1 imported brand, such as Honda VEZEL, SUBARU Outback, Audi A3 and so on, among which, S3 has realized five star achievement during the crash test with 55.4 points, further proving the hot sales SUV security and high quality.

In the 100% front impact and 40% offset collision; S3 respectively got the score of 15.65 points and 13.75 points, and its airbags opened in time with the passenger compartment structure stability without deformation, fully buffering the front impact energy and effectively protecting occupants' head, breast and legs.

In the side crash test, S3 has achieved outstanding performance with full score of 18 points, after the test; there were no deformation in high intensified B column structure, besides, side airbags and side curtain airbags opened normally and promptly, forming full protection to dummy heads and breast.

In the seats' whiplash test, S3 also achieved four points full evaluation, and its seats and headrest have provided excellent protection to the dummy neck, reducing the damage to occupants in the rear-end collision.

S3 has rich active and passive security configuration, including side airbags, side curtains, isofix, ESC(Electronic Stability Program) and so on, displaying the automobile making conception of creating value for customers.

It is learnt that since internet launched in August, 2014, S3 has become compact SUV sales champion within four months. Based on favorable comments, stable products' quality and "Easy Drive "characteristics, JAC S3 has become the sales champion with sales of 53679 units during the first quarter of 2015. Before, JAC S5 and J4 has respectively realized five star results in C-NCAP crash tests, S3 again created another five star achievement with a new high score, further proving JAC second generation passenger vehicles improvement in security design and manufacturing consistency.
